NATIONAL SURVEY OF HOMELESS ASSISTANCE PROVIDERS AND CLIENTS (NSHAPC)

FILES 2 AND 3: PROGRAM DATA FILES

CODEBOOK FOR PROGRAM DATA
FROM CATI AND MAIL QUESTIONNAIRES
(Includes variables created by The Urban Institute)

The program data collected by NSHAPC include data collected through computer-assisted telephone interviews (CATI), and data collected through the mail survey. Observations sampled by the mail survey are a subset of the observations gathered by the CATI.

Two separate weights were calculated for observations sampled through CATI (the weight CATIWGT) and for observations sampled through the mail survey (the weight MAILWGT). The observations in File 2 (program data from the CATI) use the weight CATIWGT. Observations in File 3 (program data from the CATI and the mail survey) use the weight MAILWGT.

This codebook contains definitions for all of the program-level variables from the CATI and the mail survey. Variables from File 2 are listed first. All variables in File 2 also appear in File 3. Variables appear in the order of their position in the databases. In general, this means that variables from the CATI are listed first, followed by variables created by the Urban Institute from the CATI data, variables from the mail survey, and variables created by the Urban Institute from the mail survey data.

VARIABLE NAME	TYPE	LENGTH	DESCRIPTION
PGM_ID	Num	8	Randomly-Assigned Program Observation Identifier Number
REVDEF	Num	4	Revised/Expanded Definition of Homelessness Services Programs

REVDEF:
- 1 = A rural agency that was allowed in the sample under the expanded definition of homelessness services locations
- 0 = Agency does not fall under the expanded definition of homelessness services locations

VARIABLE NAME	TYPE	LENGTH	DESCRIPTION
ISR_PRGC[1]	Num	3	Interview Status Recode for Program (CATI Data)

- 1 = Interview
- 2 = Noninterview (refused, unable to contact, etc.)
- 3 = Out-of-scope (closed, does not serve homeless persons, etc.)

VARIABLE NAME	TYPE	LENGTH	DESCRIPTION
PRG_OSC[2]	Num	3	Out-of-Scope Reason for Program

- 1 = Duplicate provider record or duplicate program
- 2 = Does not provide programs for homeless persons
- 3 = Permanently closed
- 4 = Program not offered by service location

Blank if ISR_PRGC has value 1 (interview) or 2 (noninterview).

VARIABLE NAME	TYPE	LENGTH	DESCRIPTION
PRG_NON[3]	Num	3	Noninterview Reason for Program

- 1 = Refusal
- 2 = Unable to contact
- 3 = Temporarily closed
- 4 = Other

Blank if ISR_PRGC has value 1 (interview) or 3 (out-of-scope).

FINAL	Num	8	CATI Final Codes[4]

  1   = Fully complete interview
  2   = Other complete interview, does not have programs for homeless
  3   = Complete, multiple sites combined data collected here
  4   = Partial interview, not complete at closeout[4]
  5   = In another case, data collected for this site
  8   = Noninterview, service location permanently closed
  9   = Noninterview, duplicate
 11   = Noninterview, service location temporarily closed
 18   = Noninterview, unavailable through "stop date"
 19   = Noninterview, no knowledgeable contact available at this number
 21   = Noninterview, no knowledgeable contact available at this moment
 22   = Noninterview, unpublished number or no listing of number
 23   = Noninterview, available number incorrect or problem dialing number
 29   = Other noninterview
 57   = Number correctly dialed, service location unknown at number
 97   = Wrong service location interviewed
109   = Hostile breakoff
111   = Refusal
118   = Uncompleted callbacks (unable to contact on callback)
121   = Language barrier
124   = Never contacted, confirmed number
125   = Never contacted, unconfirmed number
126   = No code assigned
127   = Never tried (new case)

NOTES

1. The recode ISR_PRGC was assigned by using the program screener items (QUA - Q2P), the program data variables (Q2D1 - Q3A25), the flag PGMFL, and the recode ISR_PROV:

    Interview (code 1) - The appropriate screener item (QUA-Q2P) has a "Yes" response, any of the program data items (Q2D1-Q3A25) has a value other than missing, "Don't know," or "Refused," **and** the service location is an interview (ISR_PROV=1);

    Out-of-scope (code 3) - The service location is out-of-scope (ISR_PROV=3) **or** the program is not provided (the appropriate screener item (QUA-Q2P) has a "No" response or PGMFL=2) **or** the program is part of another program reported on the same record (item Q2HPR, Q2IPR, Q2JPR, or Q2KPR applies to the program and the response to that item is "Part of another program") **or** the program is housing for migrant workers and it is not used for homeless persons (Q3A25=1) **or** the program is a duplicate of one reported by another service location (PGMFL =3) ;

    Noninterview (code 2) - The service location was a noninterview (ISR_PROV=2) **or** the record does not meet the conditions for codes 1 or 3.

2. PRG_OSC was assigned to programs that were out-of-scope for the survey by using the recode PRV_OSC, the flag PGMFL, the program screener items (QUA-Q2P), and item Q3A25 (for migrant worker housing only):

    Duplicate service location record or duplicate program (code 1) - The out-of-scope code for the provider indicates that the service location was listed on the survey universe file more than once (PRV_OSC=1) **or** the flag PGMFL indicates the program is a duplicate of one reported by another service location (PGMFL=3);

    Does not provide programs for homeless persons (code 2) - The out-of-scope code for the provider indicates that organization does not provide programs for homeless persons (PRV_OSC=2);

    Permanently closed (code 3) - The out-of-scope code for the provider indicates it is permanently closed (PRV_OSC=3);

    Program not offered by provider (code 4) - The appropriate screener item (QUA-Q2P) has a "No" response **or** the program is migrant worker housing and item Q3A25 indicates that it is not used for homeless persons **or** the flag PGMFL indicates that the provider does not provide the program (PGMFL=2);

    Program is part of another program reported for this provider (code 5) - Item Q2HPR, Q2IPR, Q2JPR, or Q2KPR applies to the program and the response to that item is "Part of another program."

3. PRG_NON was assigned to programs that were eligible for the survey but no data was collected by using the noninterview recode for the service location (PRV_NON) and the program screener items (Q2A-Q2P):

    Refusal (code 1) - The noninterview recode for the service location indicates the service location refused to provide any data (PRV_NON=1) **or** the program screener item (Q2A-Q2P) has a "Refused" value;

    Unable to contact (code 2) - The noninterview recode for the service location indicates the CATI interviewers were unable to contact the respondent or were unable to reach a knowledgeable respondent (PRV_NON=2);

    Temporarily closed (code 3) - The noninterview recode for the service location indicates it is no longer in operation (PRV_NON=3);

    Other (code 4) - Program data were not collected for some other reason.

4. For a few cases, the CATI final code was changed after data collection because of information contained in notes provided by the CATI interviewer or by respondents during telephone calls to Census headquarters. For these cases, the code assigned during data collection is provided in the variable ORIGOUT.

5.   The variable LOCALE describes the type of community where the service location is located. The place name and ZIP code of the service location were matched to Census records to determine community size and relationship to urbanized or rural places. The definitions of "large city," "small town," etc., are those used for the Census:

Large city - Central city of a standardized metropolitan area having a population greater than or equal to 400,000 or a population density greater than or equal to 6,000 people per square mile.

Mid-size city - Central city of a standardized metropolitan area having a population less than 400,000 and a population density less than 6,000 people per square mile.

Urban fringe of large city - Place within a metropolitan area of a large city and defined as urban by Census.

Urban fringe of mid-size city - Place within a metropolitan area of a mid-size city and defined as urban.

Large town - A town not inside a metropolitan area; has a population greater than or equal to 25,000.

Small town - A town not within a metropolitan area; has a population less than 25,000 but greater than 2,500.

Rural - A place with fewer than 2,500 people or a place designated as rural by Census.

6.   The variable Q3A3A was topcoded. Any values greater than 300 were coded as 301.

7.   The variable Q3A3B was topcoded. Any values greater than 300 were coded as 301.

8.   The variable Q3C3C1 was topcoded. Any values greater than 300 were coded as 301.

9.   The variable Q3C3C2 was topcoded. Any values greater than 300 were coded as 301.

10.   The variable Q3A4 was topcoded. Any values greater than 300 were coded as 301.

11.   The variable Q3A5 was topcoded. Any values greater than 300 were coded as 301.

12.   The variable Q3A6 was topcoded. Any values greater than 300 were coded as 301.

13. URBRURAL was assigned using the variables LOCALE and PSUTYPE.
Central city (code 1) - LOCALE has a value of 1 or 2
Suburban/urban fringe (code 2) - LOCALE has a value of 3 or 4; **or** LOCALE has a value of 5,6, or 7 and PSUTYPE has a value of 3
Rural (code 3) - LOCALE has a value of 5, 6, or 7 and PSUTYPE does not have a value of 3

14. REGION was assigned using PSURECOD, which is the geographic jurisdiction for the sampled observation.

15. UI_EXPRG was assigned using the variables ORIG_PRG and the Q2-series (using the same decision rules used for the variables UI_ALC, UI_CARE, etc.), as well as the variables PRIMARY and Q3A15J. First, observations that were originally coded (in ORIG_PRG) as health programs, migrant housing, other, education, social services, financial and housing assistance, child care, clothing or domestic violence programs that were located with an emergency, transitional, permanent housing or soup kitchen program were reclassified as a service and were not given a UI_EXPRG outcome code. The UI_EXPRG variable was also created to classify the various NSHAPC programs as specialized or unspecialized, using the variables PRIMARY and Q3A15J.

Core Programs include emergency shelter programs, transitional housing programs, permanent housing programs and soup kitchens.

16. UI_PRG was assigned using the variable UI_EXPRG, to categorize observations by program type, rather than by program type and specialization.

> *Emergency shelter* (code 1) - UI_EXPRG has a value of 1, 21, 22, 23, 24, 25, 26, or 27
> *Transitional housing* (code 2) - UI_EXPRG has a value of 2, 31, 32, 33, 34, 35, 36, or 27
> *Permanent housing* (code 3) - UI_EXPRG has a value of 3, 41, 42, 43, or 44
> *Soup kitchen* (code 4) - UI_EXPRG has a value of 4, 51, 52, 53, or 54
> *Food pantry* (code 5) - UI_EXPRG has a value of 5
> *Mobile food program* (code 6) - UI_EXPRG has a value of 6, 61, 62, 63, or 64
> *Outreach* (code 7) - UI_EXPRG has a value of 7, 71, 72, 73, or 74
> *Physical health care* (code 8) - UI_EXPRG has a value of 8
> *Mental health program* (code 9) - UI_EXPRG has a value of 9
> *Alcohol/drug program* (code 10) - UI_EXPRG has a value of 10
> *HIV/AIDS program* (code 11) - UI_EXPRG has a value of 11
> *Drop-in center* (code 12) - UI_EXPRG has a value of 12
> *Distributes vouchers for shelter* (code 13) - UI_EXPRG has a value of 14, 81, 82, 83 or 84
> *Provides housing for those paying with vouchers* (code 14) - UI_EXPRG has a value of 15, 91, 92, 93, or 94
> *Financial and housing assistance* (code 15) - UI_EXPRG has a value of 103
> *Other program* (code 16) - UI_EXPRG has a value of 12, 101, 102, 104, 105, 106

17. HMPRCNT was calculated using the variables CONTACTS, Q3A3A, Q3A3A1, Q3A3B, Q3A3B1, Q3A3C1, Q3A3C2, Q3A4, Q3A4A, Q3A5, Q3A5A, Q3A6, and Q3A6A using the following formula: HMPRCNT = HMTOTAL/CONTACTS, where HMTOTAl is the sum of the number of people from two-parent families served who are estimated to be homeless ([([Q3A3B/(Q3A3A+Q3A3B)]*[Q3A3C1+Q3A3C2])+(Q3A3B*2)]*Q3A3B1*.01); the number of people from single-parent families served who are estimated to be homeless ([([Q3A3A/(Q3A3A+Q3A3B)] * [Q3A3C1+Q3A3C2])+Q3A3A] * Q3A3A1*.01   ); the number of adults without children served who are estimated to be homeless (Q3A4*Q3A4A*.01); the number of youth served who are estimated to be homeless (Q3A5*Q3A5A*.01); and the number of children served who are estimated to be homeless (Q3A6*Q3A6A*.01).

18. The UI_FOC series of variables was assigned using the variables Q3A15B, Q3A15C, Q3A15D, Q3A15E, Q3A15F, Q3A15G, Q3A15H, Q3A15I and Q3A15ISP. Responses to Q3A15ISP (Are there any other special groups focused on by the (*program description*)?) were examined; observations were then individually coded into the UI_FOC variables.

19. UI_PRIM was assigned using the variables Q3A15J and the UI_FOC#-series.

20. CONTACTS was created by summing Q3A3A, Q3A3B doubled, Q3A3C1, Q3A3C2, Q3A4, Q3A5 and Q3A6 from the CATI data. The variable CONTACTS was topcoded. All values greater than 300 were coded as 301.

21. There are 26 observations that are valid programs from valid service locations that are missing CATI information but did return valid mail surveys. These observations are missing from File 2 (since they lack CATI data) but are on File 3.

22. The variable M_ISR was assigned as follows:
    Interview (code 1) - Case does not meet conditions for "Out-of-scope" **and** one or more data variables have good values or variable CKINCODE has value 24 to indicate that data for the program are included in the record for another site / program / service location;
    Out-of-scope (code 3) - Variable CKINCODE has a value of 8, 10, 11, 12, 17, 18, 20, 23, 26, 27, 28, 30, or 33;
    Noninterview (code 2) - Case does not meet any of the conditions above.

23. The variable M_INT was assigned as follows to cases where **data were collected** for eligible programs:
    Regular interview (code 1) - Variable CKINCODE has value of 1 (Complete return);
    Partial interview (code 2) - Variable CKINCODE has value of 2, 3, or 9;
    Data for multiple sites / programs / service locations collected (code 3) - Variable CKINCODE has value of 22;
    Data for this site / program / service locations included in another record (code 4) - Variable CKINCODE has a value of 24;
    Unclassified interview (code 5) - Data was collected for the program, the case was eligible for the survey, and the variable CKINCODE had a value other than 1, 2, 3, 9, 22, or 24.

24. The variable M_NONINT was assigned as follows to cases that were eligible for the survey but **no data were collected**:
    Refusal (code 1) - The variable CKINCODE has a value of 9 or 25;
    Unable to contact (code 2) - The variable CKINCODE has a value of 13, 14, or 31;
    Other noninterview (code 4) - The case was eligible for the survey, no data were collected, and CKINCODE has a value other than 9, 13, 14, 25, or 31.

25. The variable M_OSC was assigned as follows to cases that were out-of-scope for the survey:
    Duplicate program or service location (code 1) - Variable CKINCODE has a value of 8 to indicate that either (1) the service location was listed on the universe file more than once or (2) the program was the same as one associated with another service location, i.e., the same program received more than one questionnaire of the same type; (*Example: If a soup kitchen was operated by two organizations, e.g., St. Paul's Lutheran Church and the Salvation Army, it could have been reported twice during the CATI data collection, and it would have received two NSHAPC-100M questionnaires in the mail. One would be kept in the survey and the other would be made out-of-scope, even if it had been completed.*)
    Does not serve homeless persons (code 2) - Variable CKINCODE has a value of 10, 17, 18, 26, 27, or 28;
    Program closed / temporarily closed-no funds (code 3) - Variable CKINCODE has a value of 11 or 30;
    Program does not exist or is not offered by service location (code 4) - Variable CKINCODE has a value of 12 or 20;
    Administrative / funding / support only (code 5) - Variable CKINCODE has a value of 23 or 33.

26. The program types specified on the questionnaires were these:
    NSHAPC-100A - emergency shelter
    NSHAPC-100B - transitional housing
    NSHAPC-100C - voucher program
    NSHAPC-100D - permanent housing
    NSHAPC-100E - alcohol/drug program
    NSHAPC-100F - mental health care program
    NSHAPC-100G - physical health care program
    NSHAPC-100H - drop-in center
    NSHAPC-100I - HIV/AIDS program
    NSHAPC-100J - outreach program
    NSHAPC-100L - mobile food program
    NSHAPC-100M - soup kitchen
    NSHAPC-100N - food pantry
    NSHAPC-100P - migrant worker housing used for homeless people when not used for migrant workers
    NSHAPC-100K - other program for homeless persons

27. M_ISR_F was assigned using the variables M_ISR, CKINCODE and UI_PRG:
    In-Scope Interview (code 1) - Observation was classified as in-scope in the M_ISR variable, and is not missing a UI_PRG value.
    In-Scope Non-Interview (code 2) - Observation was classified as an in-scope non-interview in the M_ISR variable and was not missing a UI_PRG value **or** the observation had a CKINCODE value of 18, 28,20, 11, 17, 27 or 30 and was not missing a UI_PRG value.
    Out-of-Scope (code 3) - Observation was classified as out-of-scope in the M_ISR variable and was not missing a UI_PRG value and was not recoded as an in-scope non-interview (see above).
    UI-defined Service, Not a Program (code 4)- Observation is missing a UI_PRG value.

28. These availability variables (AV_H###) were assigned using the responses on the level of need for each service and the responses on who provides this service.

Service is available in the area (code 1) - All, most or some of the respondent's currently homeless clients were said to need this serivce and 'this program,' 'other on-site program,' or 'other off-site program' offered the service.

Service is unavailable in the area (code 2) - All, most or some of the respondent's currently homeless clients were said to need this serivce and the service is 'not provided anywhere.'

Missing (code 99) - Respondent did not indicate that all, most or some of the respondent's currently homeless clients need this serivce **or** respondent did not respond to the questions on 'who provides this service.'
